NEARLY \$13,000 PLEDGED—

United Way Over the Top

With a few cards yet to be worked, Hamlin's first United Way Campaign has exceeded its goal by nearly \$4,000, according to Jim Smith, drive chairman. The drive was launched with a goal of \$9,000, but latest figures released Tuesday indicated that \$12,854.60 has already been pledged.

In commenting on the drive exceeding its goal by such a wide margin, Smith said that since this was Hamlin's first effort in conducting a United Way Drive the committee could only guess at the potential that could be raised here.

"We did not base our goal on the needs of the community but rather on what we felt we could raise," Smith said. "It is most heartening to see that this community can be so generous in supporting the needs of their fellow man," he added.

"At the present time we do not know how the excess

funds raised will be allocated but the Board of Directors will meet in the near future and make this determination," Smith said. "We have already had requests from other agencies seeking to be placed in next year's budget and it may be that some of these can be considered this year," he noted.

Heading the successful United Way drive this year

are Luther Haught, president; Bob Craig, vice president; and Mrs. L. C. Bonds, secretary.

Division chairmen working with the general drive chairman were: advance-Joe Ford, Mrs. L. H. McBride and Lewis Madden; business—Haught, Mrs. Robert Fowler and Pat Willoughby; farmers—Bobby Crowley, John Scarborough, Milburn Wink

and Bill Feagan; employees—Mrs. Luther Haught and O. H. Weaver Jr.; teachers—Bob Hawes; and house to house—Mrs. Bill Feagan and Mrs. Roy Pritchard.

Under the present budget of \$9,000, 14 organizations will share in the proceeds of the drive with others likely to be considered now that the drive has exceeded its goal.

OAK GROVE PLAYGROUND OPENS—Bill Cork, left, and Henry Bussey, right, both deacons of Oak Grove Baptist Church are pleased with the opening of the Oak Grove Playground after months of work by church members and the pastor, the Rev. Leo Scott. Also active in promoting the playground was Miss Mary Esco, YWA president. The volleyball courts and basketball goals are ready for use and plans call for more equipment to be added. A chain link fence surrounds the park which is located on the grounds of the former Oscar DePriest School. A ribbon cutting ceremony was held Saturday at 2 p.m. to mark the opening. County and city crews assisted the church members with the use of heavy equipment and gravel and sand work.

And What Have You

By BOB CRAIG

This is National Education Week and it might be well to take a look at how well our system of free education is preparing people for making a living or making a life.

Locally, we feel that we are making some impressive gains in the lower grades with our Right to Read program, but at the same time we have a great many youngsters in the upper grades who missed out on this program and still have a reading problem.

No one seems to know how to cope with this problem. It is hard to reach a youngster who can not read.

The following editorial appeared in The Perryton Herald and deals with the problem as it exists on the national level.

Despite the impressive gains, including the oft repeated boast that illiteracy is just about wiped out, it appears that all is not rosy on the education front.

The U. S. Office of Education recently reported that 20 per cent of adult Americans have difficulty coping with such necessary everyday skills as shopping or getting a driver's license, while another 34 per cent "are functional but not proficient."

The report does not say so, but we are confident that many of these adults hold high school diplomas and some are even college graduates.

It is a serious blot on education in America that a high school or college diploma is no guarantee that a graduate can read or write, much less reason.

One high school in Florida passed a curious regulation last year that required seniors to take a test to see if they can read or write before giving them a diploma.

One problem is that there has been unreasonable pressure on the schools to move students on out without making sure they can perform in the subject matter. Passed up the academic ladder from one grade to another, recipients of "social promotions" bestowed automatically in order to avoid hurting the feelings of slow learners, a good many pupils have completed 12 or even 16 years of school with almost nothing to show for it in the way of academic proficiency.

In California, where a lot of educational pioneering is done, there is now a state law allowing a student to drop out of high school if he can pass a 200-question exam designed to test ability to read, write and reason.

This is a laudable move. Certainly it ought to be a minimum

City Names Committee To Work On LL Ball Park

The Hamlin City Council passed on final reading new water rates for the city's customers and Mayor Joe Ford named a committee to work on a new Little League Baseball Park at the regular monthly meeting here Monday evening.

New water rates that will go into effect with the December billing call for the same minimum charge of \$2.75 as in the past but this will be for the first 1,500 gallons instead of the first 2,000 gallons. The next 5,500 gallons will be billed at 80 cents a thousand, then 8,000

at 75 cents a thousand, and all over 15,000 gallons will be billed at 70 cents a thousand gallons. The rate for water at the loading rack will be \$1.00 per thousand gallons and the minimum for customers outside the city limits will be \$3.75.

Councilmen Buford Bigham and Richard Young Jr. were named by Mayor Ford to head a committee composed of Steve Reynolds, James Crowley, O. H. Weaver Jr., Clyde Lewis and Sam Mack Hodges to make plans for a Little League Baseball park.

The present Little League park has been torn down to make room for the new Middle School to be built by the Hamlin Independent School District. The park has been located on school property.

It will be the responsibility of this committee to seek a location for the new park and to come up with cost estimates, according to Mayor Ford. When the information is complete, the city will seek a grant from the Texas Parks and Wildlife Department for help in the construction costs.

FIFTY YEARS AGO
(November 13, 1925)

The ladies of the Baptist Church cordially invite you to eat a chicken dinner with them, Saturday, Nov. 14, at the Vaughan building (next door to Wall-Young Co.) There will be plenty of chicken and all the accessories that go with it, for only fifty cents. The proceeds of this dinner will go to Buckner Orphan's Home and the West Texas Baptist Sanitarium.

Mr. W. L. Smith of Gainesville arrived here Monday to take charge of the Jones Dry Goods Store. Mr. Smith takes the place of Mr. Howard. He is a wide awake young business man and enters the dry goods business in West Texas with the spirit that wins. As a matter of introduction, the Herald wants to say that Mr. Smith is not married.

Saturday night the switching crew in the Orient yards discovered a car of cotton afire. The car was switched to a suitable location and the Fire Department was called out. The result was that one bale was totally lost and 13 damaged. The car was damaged on the inside. This cotton is said to have been shipped from Jayton or some point on the Spur road.

The last few days has been ideal cotton gathering weather. The way the Hamlin gins have been working over time it would appear that every field in the country is making a bale to the acre, but this is not true. In fact, the recent cold weather has damaged the yield about ten to twenty per cent. A total of 10,257 bales have been ginned in Hamlin during the season.

The third major fire of the year in the business section of Hamlin last Thursday afternoon completely destroyed the interior of the Ritz Theater. Damage was estimated by Mrs. B. S. Ferguson, owner at about \$12,000. The fire, believed to have been

The new \$13,000 Central fire truck which had been accepted by the city only three hours earlier, was put into service by firemen and a representative of the fire truck company who was still in town. Previous major fires in Hamlin this year were at Paul Bryan Lumber Company and the Hassen Dry Good Company in the J. C. Turner building.

More than 200 Jones County school teachers and administrators of Jones County are expected to attend the quarterly session of the Jones County Teachers Association next Monday evening when the unit convenes at the Hamlin High School auditorium, according to Mrs. Everett Gibson, Junior High School teacher, who is president of the organization. Main speaker will be Sam B. Culpepper, director of field service of the Texas State Teachers Association, with headquarters at Austin. His subject will be "Teacher Retirement."

TEN YEARS AGO
(November 11, 1965)

Some colleges have come to think this is absurd, however. Livingston College in New Jersey requires its graduates to pass a test proving competence in reading, writing and arithmetic. Its students, faculty and some graduates are angry at this requirement.

Some of the faculty members have the idea, shared by a great many other people, that leniency is a kindness to the underprivileged. Actually, leniency is more of a disservice to them.

Making things easy for other people is not the best thing to do for them, in the long run. Giving a kid a diploma to get rid of him is a short term solution to a long term problem.

Straight as an Arrow

In Archery you score only when you hit the target. To score well, you must have straight arrows.

When you attend church, it makes it easier to stay on the straight path. The church wants to help you in all ways of life, but can only do so, if you stay within its circle. Attend church and know the joy of a good life.

NEWS FROM ...

McCaulley

By Mrs. Fred Kemp

Football is over for this season for the McCaulley Eagles who emerged as Co-winners of District 4-B. Since Highland defeated McCaulley the first conference game of the season they will get to play in bi-district.

We are very proud of these eight Eagles who made up the squad. They are Alton Hawthorne, Robert Morales, Ronnie Williams, Max Kemp, James Kemp, Kenny Smart, Luke Davis and Earl Williams. They would like to express their thanks to the Cheerleaders, members of the Pep Squad, sponsored by Mrs. Pat Carter, who were always on hand to give them encouragement; not forgetting Coach Don Story who they consider to be the "greatest." Pipers Drop Final Game to C-City, 18-7

The Pipers closed out the football season Friday night on a sad note as they fell to the Colorado City Wolves, 18-7.

Three fumbles, a bad punt and a leaky pass defense spelled the difference as the Wolves took advantage of good field position to dominate the second half of play.

Delbert Thompson was the night's leading ground gainer as he rushed 17 times for 78 yards. Robert Pharris carried eight times for 78 yards. The Pipers were in the first quarter after recovering the Pipers for 51 yards and Daniel Willis made nine trips for 38 yards and the only Hamlin touchdown. Bill Hamlin touched down.

Taking over on their own five following the field goal attempt, the Pipers drove to the C-City 12 in 13 plays. The Pipers lost eight yards on the next two plays, picked up five on third down before Gipson tried a 31-yard field goal that was short.

After forcing the Wolves to punt, the Pipers drove back down to the C-City 12 before giving up the ball on downs. Charlie Brown picked off a Ray Torrez's pass on the next series of downs to give the Pipers the ball on the C-City 46. Rodgers picked up five yards and then passed to Alan

Steele for 39 yards and a first down on the three. Willis carried in for the score and Gipson added the point after to give the Pipers a 7-0 lead with 1:15 left on the clock.

The Wolves committed four out of four passes following the kickoff to move the ball 75 yards in six plays with Torrez passing to Pete Parham for the score. The point after kick was blocked.

The Pipers fumbled again on their next possession with the Wolves taking over on the Hamlin 29. The Piper defense held and Hamlin took over again on their own 25. The Pipers picked up a first down at the 35, but were forced to punt four plays later from the 40.

Tips for Your
DISHWASHER

★ Clean the filter screen often. A clogged
filter can reduce the efficiency of your
dishwasher.

★ Use only detergents manufactured specif-
ically for dishwashers. A wetting agent
helps prevent water spots on glasses and
silverware.

★ A dishwasher will usually hold a whole
day's dishes. It takes as much hot water
and energy to wash 1 dish as it does a
full load. Stack your dishes out of sight
in your dishwasher and wait until you
have a full load to turn it on.

Philosopher Finds A New School System That Assures Education for Everybody

Editor's Note: The Neinda Philosopher on his Johnson grass farm on Route One discusses education this week, whether it's in his field or not.

Dear editor:

Some people are always lambasting the school system, saying it's not meeting the demands of modern times, there are too many drop-outs, too many absentees, that kids can finish high school without being able to pass a test in reading, writing or arithmetic.

Well, I just read an article about how one big city school—Dallas, Texas, to be exact—is solving the problem and heading off such criticism.

It has abolished exams for most kids.

That's right. It has a rule that if a student is not absent more than 3 days in a quarter he doesn't have to take that quarter's final exam. Gaze out the window if you want to but answer present to the roll call. Anyway, it's an invasion of privacy to try to find out if a kid can read or write.

This seems to be the answer on how to attain

universal education.

Thus I suppose if a kid will go through grammar school and high school without missing more than 3 days every quarter, he gets a diploma unexamined. If he'll make the same record 4 years in college, he gets a Bachelor's degree. Go another year and he has an M.A. degree. Stay in there 3 more years and he has a Ph.D.

So to reach the pinnacle in education all he has to do is stay healthy and not play hooky, provided his cross-town bus doesn't break down more than 3 days in a quarter, although I can't believe the Supreme Court would rule a person uneducated just because his bus had a blown gasket 4 days in a row back in the eighth grade.

In this connection, I read that an industrial leader in Japan has complained that his country is turning out so many educated people that they are "bogging down the country's decision-making process with their suggestions." He said Japan's colleges have increased from 50 during World War II to 1,000 now, and everybody is so informed everybody has his own answer to every

problem, plus thinking up new ones, and nobody can decide which is right.

If Japan will adopt this new system, it won't have that problem.

Yours faithfully,
J.A.

AUSTIN — State government ended its 1975 fiscal year with a record cash surplus of more than \$1.4 billion, but if the legislature continues its spending ways it may not last long.

This was the good news and the bad news of Comptroller Bob Bullock last week as he released his annual financial report for the fiscal year which closed August 31.

"We're in the best shape ever for now," said Bullock. "But our analysis consistently shows that if spending increases as usual in 1977, we will face a tax bill in the \$1 billion range."

The Legislature this year passed a \$12.1 billion biennial appropriations bill.

Gov. Dolph Briscoe and others have predicted that, with reasonable economies and continuing high yield from sales and oil and gas taxes, a major state tax bill can be avoided in 1977 as in the last two legislatures.

Bullock said the state had \$6.9 billion in the last fiscal year to meet an expenditure level of \$5.5 billion.

Revenues, the Comptroller said, increased 13 per cent over 1974 income —

School Session Urged

Texas Association of School Boards executive committee has urged Governor Briscoe to call a special legislative session to deal with school finance problems arising from the

Hill fee opinion.

Texas Association of School Administrators executive committee also asked the governor to help ease the strain on districts which the opinion may cause. Briscoe said he has no intention of calling a special session and will be "looking for other ways to meet the problem."

Hill's opinion October 1 concluded special school fees for such things as driver education, band uniform rental and workbooks are illegal.

OAK GROVE PLAYGROUND OPENS—Bill Cork, left, and Henry Bussey, right, both deacons of Oak Grove Baptist Church are pleased with the opening of the Oak Grove Playground after months of work by church members and the pastor, the Rev. Leo Scott. Also active in promoting the playground was Miss Mary Esco, YWA president. The volleyball courts and basketball goals are ready for use and plans call for more equipment to be added. A chain link fence surrounds the park which is located on the grounds of the former Oscar DePriest School. A ribbon cutting ceremony was held Saturday at 2 p.m. to mark the opening. County and city crews assisted the church members with the use of heavy equipment and gravel and sand work.

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

This is National Education Week and it might be well to take a look at how well our system of free education is preparing people for making a living or making a life.

Locally, we feel that we are making some impressive gains in the lower grades with our Right to Read program, but at the same time we have a great many youngsters in the upper grades who missed out on this program and still have a reading problem.

No one seems to know how to cope with this problem. It is hard to reach a youngster who can not read.

The following editorial appeared in The Perryton Herald and deals with the problem as it exists on the national level.

Despite the impressive gains, including the oft repeated boast that illiteracy is just about wiped out, it appears that all is not rosy on the education front.

The U. S. Office of Education recently reported that 20 per cent of adult Americans have difficulty coping with such necessary everyday skills as shopping or getting a driver's license, while another 34 per cent "are functional but not proficient."

The report does not say so, but we are confident that many of these adults hold high school diplomas and some are even college graduates.

It is a serious blot on education in America that a high school or college diploma is no guarantee that a graduate can read or write, much less reason.

One high school in Florida passed a curious regulation last year that required seniors to take a test to see if they can read or write before giving them a diploma.

One problem is that there has been unreasonable pressure on the schools to move students on out without making sure they can perform in the subject matter. Passed up the academic ladder from one grade to another, recipients of "social promotions" bestowed automatically in order to avoid hurting the feelings of slow learners, a good many pupils have completed 12 or even 16 years of school with almost nothing to show for it in the way of academic proficiency.

In California, where a lot of educational pioneering is done, there is now a state law allowing a student to drop out of high school if he can pass a 200-question exam designed to test ability to read, write and reason.

This is a laudable move. Certainly it ought to be a minimum

With a few cards yet to be worked, Hamlin's first United Way Campaign has exceeded its goal by nearly \$4,000, according to Jim Smith, drive chairman. The drive was launched with a goal of \$9,000, but latest figures released Tuesday indicated that \$12,854.60 has already been pledged.

In commenting on the drive exceeding its goal by such a wide margin, Smith said that since this was Hamlin's first effort in conducting a United Way Drive the committee could only guess at the potential that could be raised here.

"We did not base our goal on the needs of the community but rather on what we felt we could raise," Smith said. "It is most heartening to see that this community can be so generous in supporting the needs of their fellow man," he added.

"At the present time we do not know how the excess

City Names Committee To Work On LL Ball Park

The Hamlin City Council passed on final reading new water rates for the city's customers and Mayor Joe Ford named a committee to work on a new Little League Baseball Park at the regular monthly meeting here Monday evening.

New water rates that will go into effect with the December billing call for the same minimum charge of \$2.75 as in the past but this will be for the first 1,500 gallons instead of the first 2,000 gallons. The next 5,500 gallons will be billed at 80 cents a thousand, then 8,000

at 75 cents a thousand, and all over 15,000 gallons will be billed at 70 cents a thousand gallons. The rate for water at the loading rack will be \$1.00 per thousand gallons and the minimum for customers outside the city limits will be \$3.75.

Councilmen Buford Bigham and Richard Young Jr. were named by Mayor Ford to head a committee composed of Steve Reynolds, James Crowley, O. H. Weaver Jr., Clyde Lewis and Sam Mack Hodges to make plans for a Little League Baseball park.

The present Little League park has been torn down to make room for the new Middle School to be built by the Hamlin Independent School District. The park has been located on school property.

It will be the responsibility of this committee to seek a location for the new park and to come up with cost estimates, according to Mayor Ford. When the information is complete, the city will seek a grant from the Texas Parks and Wildlife Department for help in the construction costs.

The ladies of the Baptist Church cordially invite you to eat a chicken dinner with them, Saturday, Nov. 14, at the Vaughan building (next door to Wall-Young Co.) There will be plenty of chicken and all the accessories that go with it, for only fifty cents. The proceeds of this dinner will go to Buckner Orphan's Home and the West Texas Baptist Sanitarium.
Mr. W. L. Smith of Gainesville arrived here Monday to take charge of the Jones Dry Goods Store. Mr. Smith takes the place of Mr. Howard. He is a wide awake young business man and enters the dry goods business in West Texas with the spirit that wins. As a matter of introduction, the Herald wants to say that Mr. Smith is not married.
Saturday night the switching crew in the Orient yards discovered a car of cotton affire. The car was switched to a suitable station and the Fire Department was called out. The result was that one bale was totally lost and 13 damaged. The car was damaged on the inside. This cotton is said to have been shipped from Jayton or some point on the Spur road.
The last few days has been ideal cotton gathering weather. The way the Hamlin gins have been working over time it would appear that every field in the country is making a bale to the acre, but this is not true. In fact, the recent cold weather has damaged the yield about ten to twenty per cent. A total of 10,257 bales have been ginned in Hamlin during the season.

goal for the public schools to have graduates that can read and write.
Some colleges have come to think this is absurd, however. Livingston College in New Jersey requires its graduates to pass a test proving competence in reading, writing and arithmetic. Its students, faculty and some graduates are angry at this requirement.
Some of the faculty members have the idea, shared by a great many other people, that leniency is a kindness to the underprivileged. Actually, leniency is more of a disservice to them.
Making things easy for other people is not the best thing to do for them, in the long run. Giving a kid a diploma to get rid of him is a short term solution to a long term problem.

Straight as an Arrow

In Archery you score only when you hit the target. To score well, you must have straight arrows.

When you attend church, it makes it easier to stay on the straight path. The church wants to help you in all ways of life, but can only do so, if you stay within its circle. Attend church and know the joy of a good life.

"For God is not the author of confusion, but of peace, as in all churches of the saints."

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Pipers Drop Final Game to C-City, 18-7

The Pipers closed out the football season Friday night on a sad note as they fell to the Colorado City Wolves, 18-7.

Three fumbles, a bad punt and a leaky pass defense spelled the difference as the Wolves took advantage of good field position to dominate the second half of play.

Delbert Thompson was the night's leading ground gainer as he rushed 17 times for 78 yards. Robert Pharris carried eight times for the Pipers for 31 yards and Daniel Willis made nine trips for 38 yards and the only Hamlin touchdown. Bill

Everett was the top ground gainer for the Wolves with 74 yards in 25 carries.

The two teams battled scoreless for all but the final couple of minutes of the first half and then both scored before the time ran out in the half. The Pipers went in at lead on the strength of Jimmy Gipson's extra point. Both teams missed on first half field goal attempts.

Colorado City tried their first field goal midway in the first quarter after recovering the Pipers' first fumble on the Hamlin 25. The Wolves picked up eight yards in three plays before attempting the

field goal.

Taking over on their own five following the field goal attempt, the Pipers drove to the C-City 12 in 13 plays. The Pipers lost eight yards on the next two plays, picked up five on third down before Gipson tried a 31-yard field goal that was short.

After forcing the Wolves to punt, the Pipers drove back down to the C-City 12 before giving up the ball on downs. Charlie Brown picked off a Ray Torres' pass on the next series of downs to give the Pipers the ball on the C-City 46. Rodgers picked up five yards and then passed to Alan

Steele for 39 yards and a first down on the three. Willis carried in for the score and Gipson added the point after to give the Pipers a 7-0 lead with 1:15 left on the clock. The Wolves completed four out of four passes following the kickoff to move the ball 75 yards in six plays with Torres passing to Pete Parham for the score. The point after kick was blocked.

The Pipers failed to gain a first down following the second half kick off and a bad snap caused Rodgers to get off a six-yard punt to the Hamlin 28. The Wolves moved to the Hamlin nine before trying another field

goal which again was no good. Taking over on the 20, the Pipers fumbled after picking up the needed yardage for a first down with C-City taking over on the Hamlin 31. The Wolves scored in nine plays, aided by a pass interference penalty that gave them a first down on the Hamlin one. Everett scored and Torres' pass for the two points fell incomplete to give the Wolves a 12-7 lead with 1:53 left in the third period.

The Pipers fumbled again on their next possession with the Wolves taking over on the Hamlin 29. The Piper defense held and Hamlin took over again on their own 25. The Pipers picked up a first down at the 35, but were forced to punt four plays later from the 40. The Wolves took over at

REDDY'S Conserve and Save Tips for Your DISHWASHER

★ Clean the filter screen often. A clogged filter can reduce the efficiency of your dishwasher.

★ Use only detergents manufactured specifically for dishwashers. A wetting agent helps prevent water spots on glasses and silverware.

★ A dishwasher will usually hold a whole day's dishes. It takes as much hot water and energy to wash 1 dish as it does a full load. Stack your dishes out of sight in your dishwasher and wait until you have a full load to turn it on.

Philosopher Finds A New School System That Assures Education for Everybody

Editor's Note: The Neinda Philosopher on his Johnson grass farm on Route One discusses education this week, whether it's in his field or not

Dear editor: Some people are always lambasting the school system, saying it's not meeting the demands of modern times, there are too many drop-outs, too many absentees, that kids can finish high school without being able to pass a test in reading, writing or arithmetic.

Well, I just read an article about how one big city school—Dallas, Texas, to be exact—is solving the problem and heading off such criticism.

It has abolished exams for most kids.

That's right. It has a rule that if a student is not absent more than 3 days in a quarter he doesn't have to take that quarter's final exam. Gaze out the window if you want to but answer present to the roll call. Anyway, it's an invasion of privacy to try to find out if a kid can read or write.

This seems to be the answer on how to attain

universal education.

Thus I suppose if a kid will go through grammar school and high school without missing more than 3 days every quarter, he gets a diploma unexamined. If he'll make the same record 4 years in college, he gets a Bachelor's degree. Go another year and he has an M.A. degree. Stay in there 3 more years and he has a Ph. D.

So to reach the pinnacle in education all he has to do is stay healthy and not play hockey, provided his cross-town bus doesn't break down more than 3 days in a quarter, although I can't believe the Supreme Court would rule a person uneducated just because his bus had a blown gasket 4 days in a row back in the eighth grade.

In this connection, I read that an industrial leader in Japan has complained that his country is turning out so many educated people that they are "bogging down the country's decision-making process with their suggestions." He said Japan's colleges have increased from 50 during World War II to 1,000 now, and everybody is so informed everybody has his own answer to every

problem, plus thinking up new ones, and nobody can decide which is right.

If Japan will adopt this new system, it won't have that problem.

Yours faithfully,
J.A.

AUSTIN — State government ended its 1975 fiscal year with a record cash surplus of more than \$1.4 billion, but if the legislature continues its spending ways it may not last long.

This was the good news and the bad news of Comptroller Bob Bullock last week as he released his annual financial report for the fiscal year which closed August 31.

"We're in the best shape ever for now," said Bullock. "But our analysis consistently shows that if spending increases as usual in 1977, we will face a tax bill in the \$1 billion range."

The Legislature this year passed a \$12.1 billion biennial appropriations bill.

Gov. Dolph Briscoe and others have predicted that, with reasonable economies and continuing high yield from sales and oil and gas taxes, a major state tax bill can be avoided in 1977 as in the last two legislatures.

Bullock said the state had \$6.9 billion in the last fiscal year to meet an expenditure level of \$5.5 billion.

Revenues, the Comptroller said, increased 13 per cent over 1974 income —

Aspermont Seeks Housing Needs

A survey is now being conducted in Aspermont to determine the need for rental housing there to be financed by the Farmers Home Administration.

All interested persons are urged to fill out a form available at the Aspermont City Hall.

The Aspermont Housing Authority and Aspermont city officials are working with Stanley Brown, Architect, of Dallas with the preliminary stages. The firm will provide the design and supervision of the units if the project proceeds into full development.

"The real story," said Bullock, "is that revenue increased because of in-

Aspermont Rites Held Tuesday for Isaiah Smith Sr.

Isaiah E. Smith Sr., 80, of Aspermont, a retired stock-farmer and one of the organizers of Hamlin Memorial Hospital, died at 6 p.m. Sunday in Leisure Lodge in San Angelo after a brief illness. Services were at 2 p.m. Tuesday in First Baptist Church, with burial in Aspermont Cemetery, directed by McCoy Funeral Home.

Born Nov. 19, 1894, in Stonewall County, Mr. Smith married Esther Dye in May 1917 in Buffalo Gap. She died in 1972.

Mr. Smith was a lifetime Aspermont resident and a member of First Baptist Church, American Legion and Veterans of Foreign Wars. He had served as a deacon in the Baptist Church for many years and was a World War I veteran.

School Session Urged

Texas Association of School Boards executive committee has urged Governor Briscoe to call a special legislative session to deal with school finance problems arising from the

Hill fee opinion.

Texas Association of School Administrators executive committee also asked the governor to help ease the strain on districts which the opinion may cause. Briscoe said he has no intention of calling a special session and will be "looking for other ways to meet the problem."

Hill's opinion October 1 concluded special school fees for such things as driver education, band uniform rental and workbooks are illegal.
